Not Sure

Comments (Young Children)

Does not live with young children and has not been exposed to them.

Turn Out Routine

She is let out 4-5 times a day with the other greyhounds in the home. She is not potty trained at this time and it is something that is being worked on. So she will occasionally have accidents in her crate.

Potty On Lead

Not Sure. Galena is still learning how to walk on a leash with manners. This is a work in progress.

Garbage

Does not have access to the garbage can

Stairs

Taught herself how to go up and down stairs in the home

When is the hound crated?

- 8 Hour Work Day
- Bed Time

How does the hound handle being crated?

In the beginning she would sometimes chew on the bars of the crate, but she has not done that in at least a month. She can be incredibly vocal in her crate, when she chooses to do so it lasts anywhere between 1-15 minutes. She is able to have bedding in her crate and does not chew/shred it. Galena will handle being in the crate and it is suggested to keep doing so for potty training purposes.

What does the hound enjoy?

She enjoys playing and following the other hounds in the home around outside. While she can be reserved, Galena enjoys being around her humans.

Does the hound have any fears?

Loud noises, quick movements or when someone tries to approach her quickly.

What type of temperament does the hound have? (Shy, outgoing, confident, etc.)

Skittish but inquisitive

How does the hound handle new situations?

At this time, she can be very uncertain and it is best that she is given time to figure it out.
