Not Sure

Cat Safe

Yes

Comments (Cat Safe)

I live with 3 cats who usually ignore me but I get curious when they run around the house. My foster mom watches me closely but I usually just watch for a moment then lay my head back down.

When is the hound crated?

- Bed Time

How does the hound handle being crated?

I don't really like my crate but will go in when I need to. I don't bark in it and will eat my food in it but prefer my comfy bed. Also when no one is home with me I have to go in there and wait for them to come back.

What does the hound enjoy?

I like napping and playing outside and walks. Sometimes I grab all the toys and squeak them and chew on all the bones.

Does the hound have any fears?

So far everything is new to me but it's getting better. The first time I saw the tv come on I hid but now I ignore it. Loud noises gets me curious but I know I'm safe. I still don't like the garbage truck though, he's loud.

What type of temperament does the hound have? (Shy, outgoing, confident, etc.)

I'm still a little shy but blossoming everyday. I love to be outside and come running to my foster mom and rub all over her. Scratches behind my ears are the best.

How does the hound handle new situations?

When something startles me I look around for the noise but then I calm down.

What type of food are you currently using?

4 Health from TSC Salmon and sweet potato

Amount of AM feeding

~2 cups around 630-7a
